

PROFESSIONAL REMOTE MONITORING WEATHER STATION

QUICK START GUIDE

MODEL #: V40A-PRO
DC: 051619

STEP 1: POWER UP SENSORS AND STATION SENSORS

In any order, insert batteries into your Thermo-Hygro, and Multi-Sensors.

STATION

- Insert the power cord into an outlet, then into your Weather Station.
- (Optional) Insert batteries into your Weather Station.

Note: It may take up to 10 minutes for your sensors' data to appear on your station's screen. Power Cord is required.

STEP 2: CONNECT TO THE LA CROSSE VIEW® APP

DOWNLOAD

Visit the App Store or Google Play Store to download the free La Crosse View app onto your mobile device.

LAUNCH & FOLLOW

Open the La Crosse View app and follow the on-screen instructions.

GET YOUR STATION READY

Ensure your station's Wi-Fi Indicator  is flashing. If it is not, press and hold the Plus (+) and Minus (-) button down together until it begins flashing. This tells you that your station is ready to connect.

HAVING TROUBLE CONNECTING?

Make sure your mobile device is connected to your router's 2.4GHz Wi-Fi network, and that you've correctly entered your Wi-Fi password.

Benefits of Connecting to La Crosse View™

FEATURE	STANDALONE	CONNECTED
Wind Speed	✓	✓
Wind Direction	✓	✓
Rainfall	✓	✓
Indoor & Outdoor Temperature	✓	✓
"Feels Like" Temperature	✓	✓
Indoor & Outdoor Humidity	✓	✓
12-Hour Forecast	✓	✓
Internet Time & Calendar		✓
Advanced Forecast Icons		✓
Daily Forecast HIs & LOs		✓
% Chance of Precipitation		✓

STEP 3:

MOUNT YOUR SENSORS

THERMO-HYGRO

Keep out of direct sunlight & ensure the sensor is well ventilated. We recommend mounting under a deck or eave facing north.

MULTI-SENSOR

Ensure your sensor is mounted level with the solar panel facing south. Place the sensor at tallest point in your area to avoid reduced wind speed readings, an unobstructed rooftop is ideal.

ADD-ON SENSORS

Expand your system by adding sensors or even extra displays around your home. These can easily be set up and viewed in your La Crosse View app. Add-On Sensors can be found here:

bit.ly/add-on_sensors

Note: Add-On Sensors require connection to La Crosse View.

BUTTONS & FUNCTIONS

Buttons located on top of your Weather Station

ALERTS	RAIN	WIND	TEMP	SENSOR	+	-	SET	LIGHT
ALERTS	Hold to set Alerts. Press to confirm setting and move to next alert.							
RAIN, WIND, TEMP	Press to view history.							
SENSOR	Press to view sensor ID numbers, then hold MINUS (-) to remove. Hold PLUS (+) to search for individual sensors.							
+ or -	Use + or - to adjust values in settings.							
+ & -	Hold both buttons to clear and search for new Wi-Fi connection.							
SET	Hold for Basic Settings. Press to view Wi-Fi status.							
LIGHT	Press to adjust brightness.							
ALERTS & LIGHT	Hold both buttons to reset all sensor ID's and Wi-Fi settings.							

STATION ICONS

 **Wi-Fi Indicator:** Will flash when your station is ready to connect to the Internet, and be solid on screen when connected.

 **Alert Indicators:** Will display in areas to indicate individual HI & LO alerts, when active.

 **Low Battery Indicators:** Individual station/sensor indicators will let you know which batteries to replace.

 **Sensor Reception Indicators:** Indicate the reception strength between your sensors and station.

ADVANCED WEATHER FORECASTS

Other benefits of connecting your station to the La Crosse View app include Advanced Forecasts Icons, HI/LO Temps, and Chance of Precipitation values.

FCC STATEMENT

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Increase separation between equipment & receiver.
- Consult the dealer or an experienced radio/TV technician for help.

This device must not be co-located or operating in conjunction with any other antenna or transmitter. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

CAUTION!

The manufacturer is not responsible for any radio or TV interference caused by unauthorized changes or modifications to this equipment. Such changes or modifications could void the user authority to operate the equipment.

All rights reserved. This manual may not be reproduced in any form, even in part, or duplicated or processed using electronic, mechanical or chemical process without the written permission of the publisher.

This booklet may contain errors or misprints. The information it contains is regularly checked and corrections are included in subsequent editions. We disclaim any responsibility for any technical error or printing error, or their consequences. All trademarks and patents are recognized.

 **WARNING:** This product can expose you to chemicals including styrene, which is known to the State of California to cause cancer. For more information go to: www.p65warnings.ca.gov/
